Joint Intelligence Training Program

25 August, 2009

Purpose

To **INFORM** the JNTC Corporate Board regarding the current status and initiatives of the Joint Intelligence Training Program.

Agenda

- Program Scope and C2
- JIT Program Plan
- I2T2

Strategy: End-state

A universally accepted Joint Intelligence Training and Education Program with global execution through a Joint Intelligence Training Capability that is administered to published standards and addresses all types of training (individual, staff/functional and collective) at all levels of war (strategic to tactical) in order to maintain a consistent application of joint intelligence support to the warfighter.

DODI 3305.14
Joint Intelligence Training (JIT)

- Assigns **JFCOM** the responsibility to:
  - **Administer a JIT capability**:
    - Program Management; Requirements/Capabilities Development; Training Development, Execution, and Assessment; Exercise Planning/Execution; M&S; and Readiness Reporting
  - **Serve as lead integrator for JIT requirements**:
    - Collect, validate, and prioritize requirements
    - Develop JIT standards for use in certification and accreditation
    - Develop assessment process & metrics for JIT performance & effectiveness
    - Develop a supporting JIT M&S Strategy
    - Maintain intelligence-related UJTLs
  - **Chair: Joint Force Intelligence Training Council (JFITC)**

Program “C2”

The U.S. Joint Forces Command is the **lead agent** for execution of the JIT Program.

- The Commander, USJFCOM: **designate** a JIT **Program Manager** who will also function as the **Director, JIT JMO**.

- The **JIT JMO manages and executes the program** while providing the **linkage** to the Training Transformation (**T2**) Enterprise as the JIT point of contact in the T2 Joint Integrated Process Team (**JIPT**) and to the Defense Intelligence Training Enterprise (**DITE**) through the JFITC and the Defense Intelligence Training and Education Board (**ITEB**).

Program “C2”

The **JFCOM J2:** as the command MIP manager, has designated responsibility for the JIT JMO and Chairmanship of the JFITC.

- The **JFITC** will be the **primary decision making forum** for JIT requirements and solutions within DoD.
  - Chaired by JFCOM; O-6 level reps from COCOMs, Services and Intel CSAs
- The J2 will ensure the JIT JMO and other JIT resources, as required, remain in **direct support of the J7 and the Joint Force Trainer mission**.

The **JFCOM J7:** as the Joint Force Trainer provides for the JIT JMO to be collocated at the Joint Warfighting Center with the Trainers and the two JFCOM-led T2 programs (JNTC and JKDDC).

JIT JMO

- DIG 2006: Stand-up a JIT JMO
  - FY07: Transition JMO
  - FY08: IOC (2 x GS, 7 x Contractors)
  - FY10: FOC (5 x GS, 12 Contractors)

The JIT JMO exercises a centralized authority and responsibility for planning, organizing, staffing, controlling, and leading the implementation of JIT Program components through the combined efforts of JIT stakeholders across the DoD T2 and Intelligence Training Enterprises.

Joint Force Intelligence Training Council (JFITC)

- Corporate Board equivalent
- Broad Membership
  - Voting Members: all Combatant Commands, Intelligence CSAs, and Military Services, and JS J2
  - Other Members: Intell Training Councils, OSD, JS J7,
- Meets Monthly by telephone conference
- Oversee development/execution of the JIT Program
- Addresses al types of Joint Training
  - Individual, Staff/functional, and collective
  - Emphasis is on staff/functional training
- Linked to DoD T2 program through JIT JMO
- Prepare an annual report on JIT activities

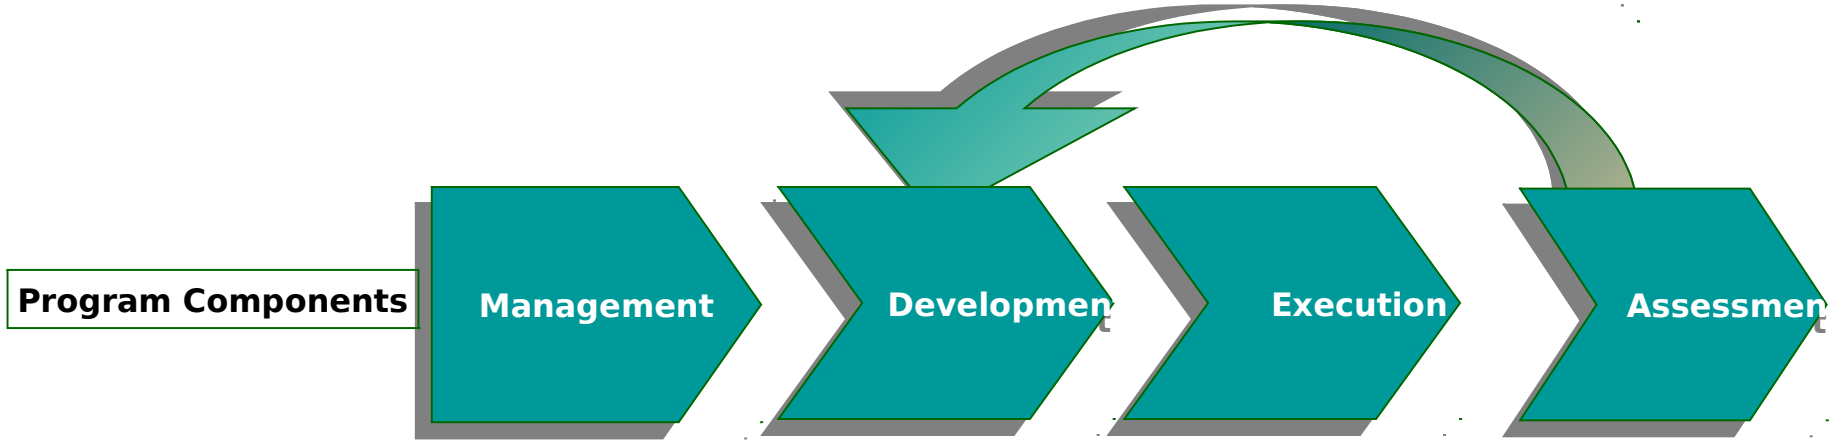
JIT Program Parameters

- Scope is DoD-wide
- Bridges Defense T2 and Defense Intelligence Training Enterprises
- Prescribes task-based training across the continuum (collective, staff/functional and individual)
- Addresses joint intelligence trainers, training, development, and delivery
- Functional subset to JFCOM's Joint Force Trainer Mission; assigns responsible authority for JIT execution

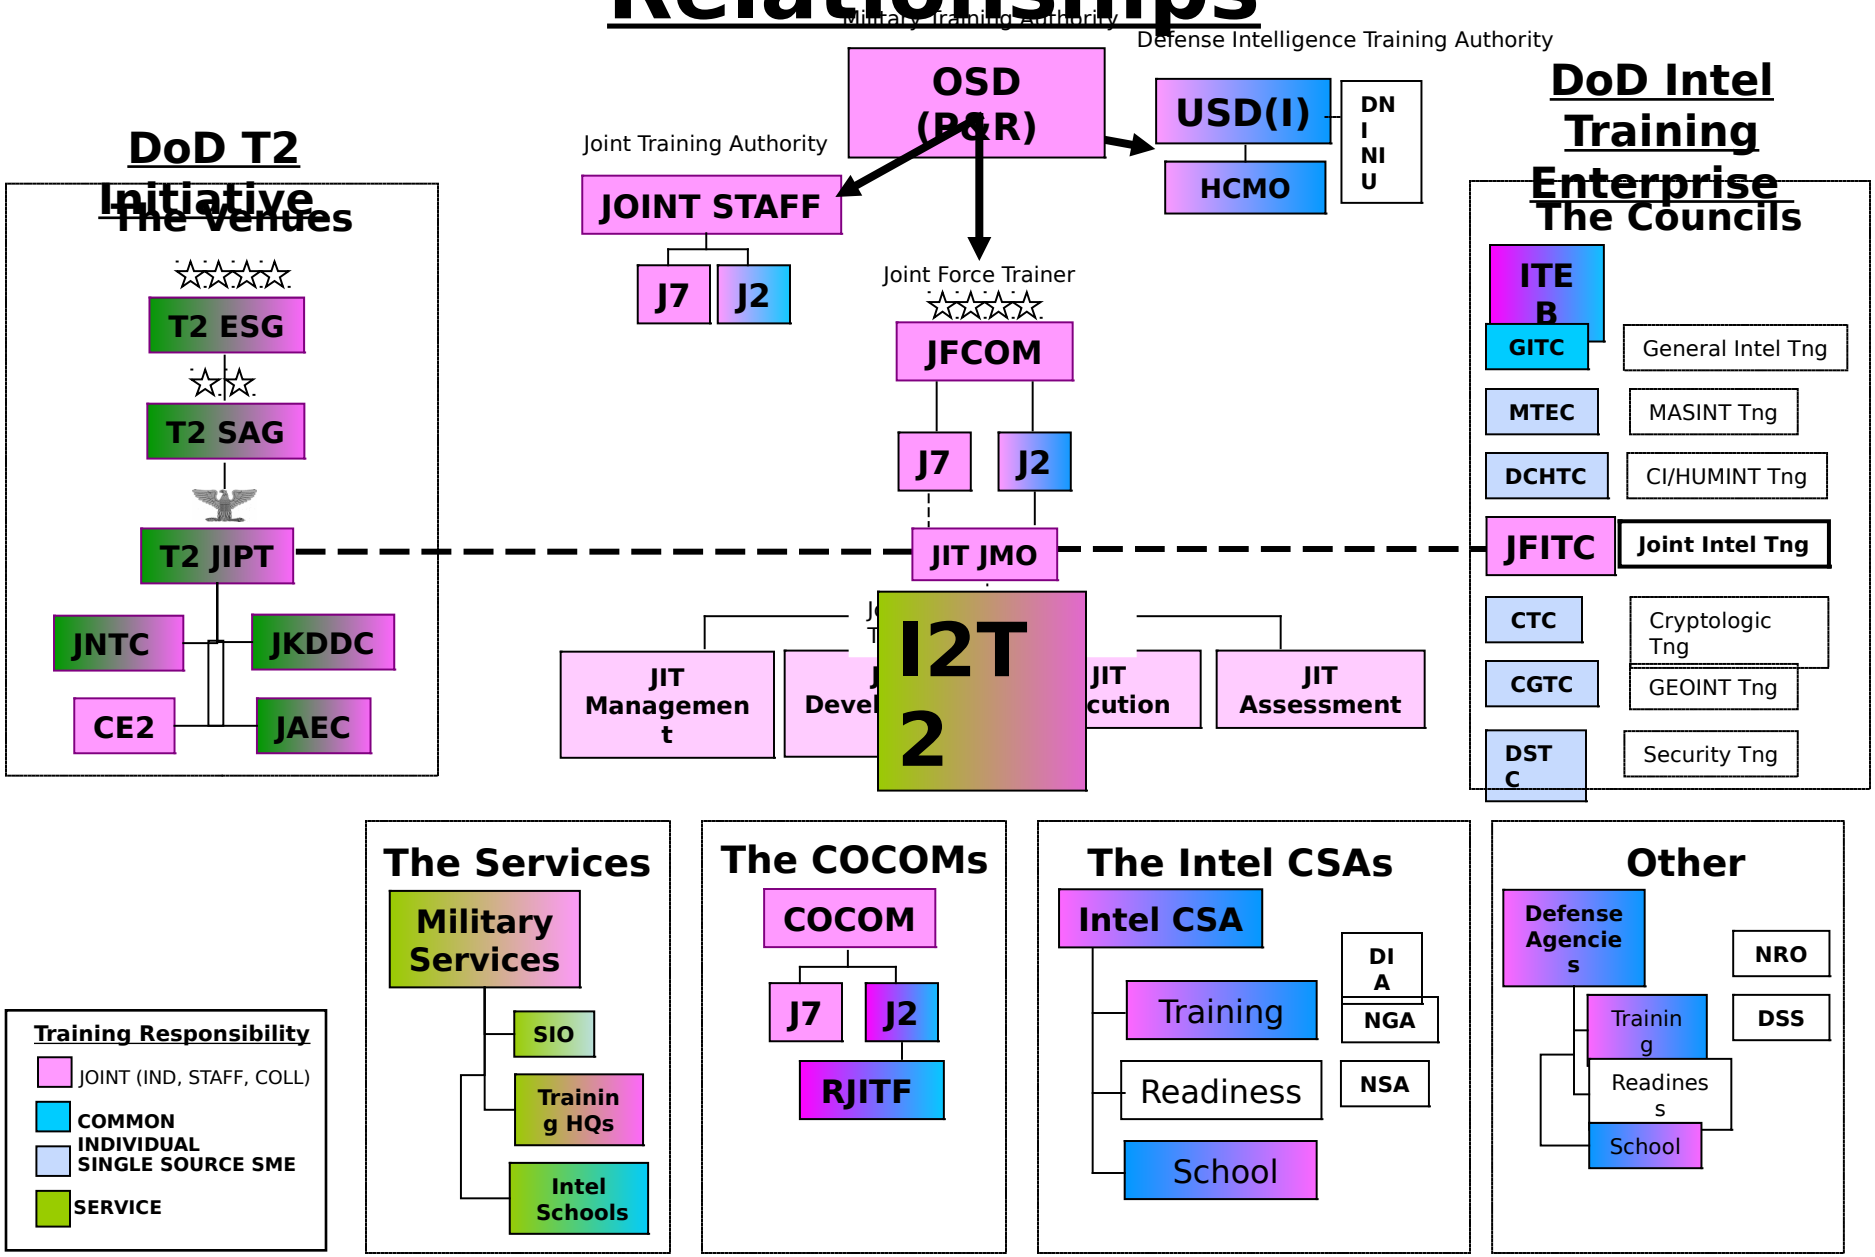
Goals, Components, Lines of Operation

JIT Program Strategic Goals

1) Develop collaborative partnerships in order to foster advocacy for Joint Intelligence Trainin
2) Achieve operational standardization within the Defense Intelligence Training Enterprise.
3) Ensure long-term sustainment of a Joint Intelligence Training capability.
4) Improve Joint Intelligence Readiness.



Partner Organizations and Relationships



Program Focus

- Combatant Commands:
  - Assist w/COCOM Training Programs
    - Support JIT within JTS Collective Training (assess and advise)
      - JTP addresses intel training; Intel JMETs; Intel Training Objectives
    - Support Directorate Training (J2 Staff Training)
      - Develop tasks/training across seven functional areas
    - Support Joint Individual Training
      - Identify Joint Intelligence Qualification Levels (SL 1-4) requirements by JMD Billet

Program Focus

- Intelligence Combat Support Agencies
  - Define “Strategic Intelligence Support to the Warfighter”
    - Support to National Decision Makers (N-JOIC)
    - Support to the COCOMs
  - Define Joint Collective and Staff Training Requirements
    - Revise SN 2.0 UJT
    - Define COCOM Support Team Training

Program Focus

- Military Services
  - Define Intelligence dimension of Joint Context in Service Training
  - Identify Joint Familiarization Training

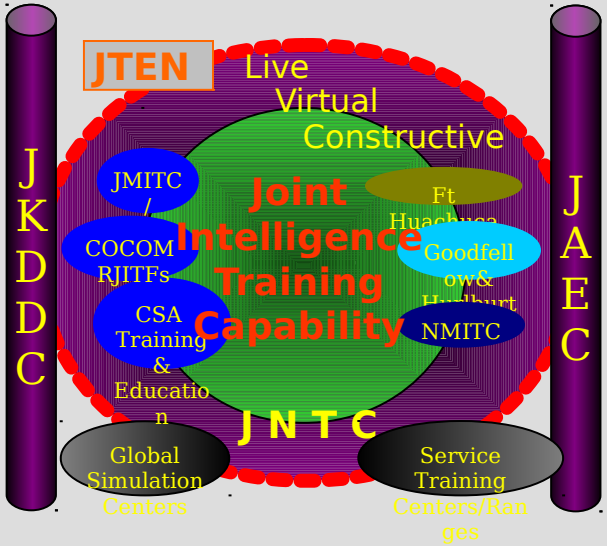
Questions?

Backups

A Joint Intelligence Training Strategy

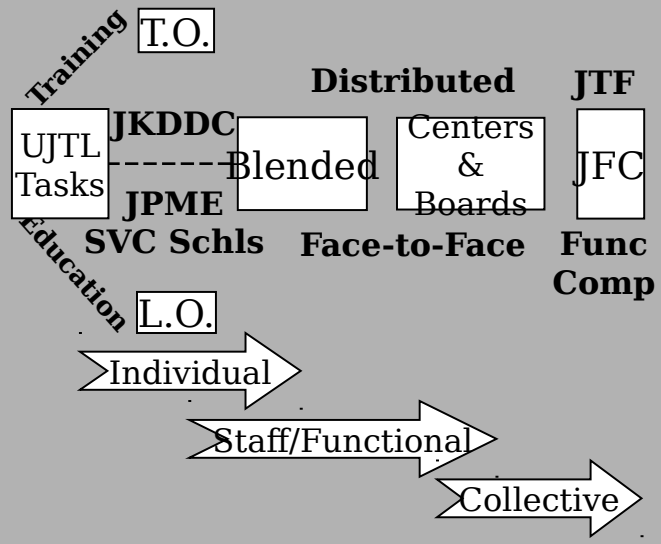
Joint Intelligence Training Capability



1. **Fully integrate with Defense Training Transformation (T2) Implementation Plan; three pillars: JNTC, JKDDC and JAEC**
2. **Include all types of training (individual, staff/functional, and collective)**
3. **Leverage existing Defense intelligence training schools and venues**
4. **Align with existing Joint and Service Training Systems (JTS/GITS)**

"Operating Principle #1"

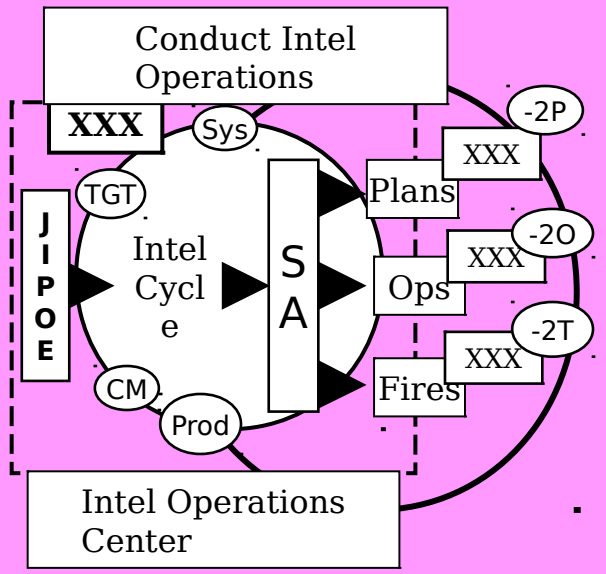
Joint Intelligence Training Continuum



1. **Establish community accepted universal tasks that define both training and learning objectives**
2. **View holistically – a progressive and cumulative process that develops individual, staff/functional and collective skills**

"Operating Principle #2"

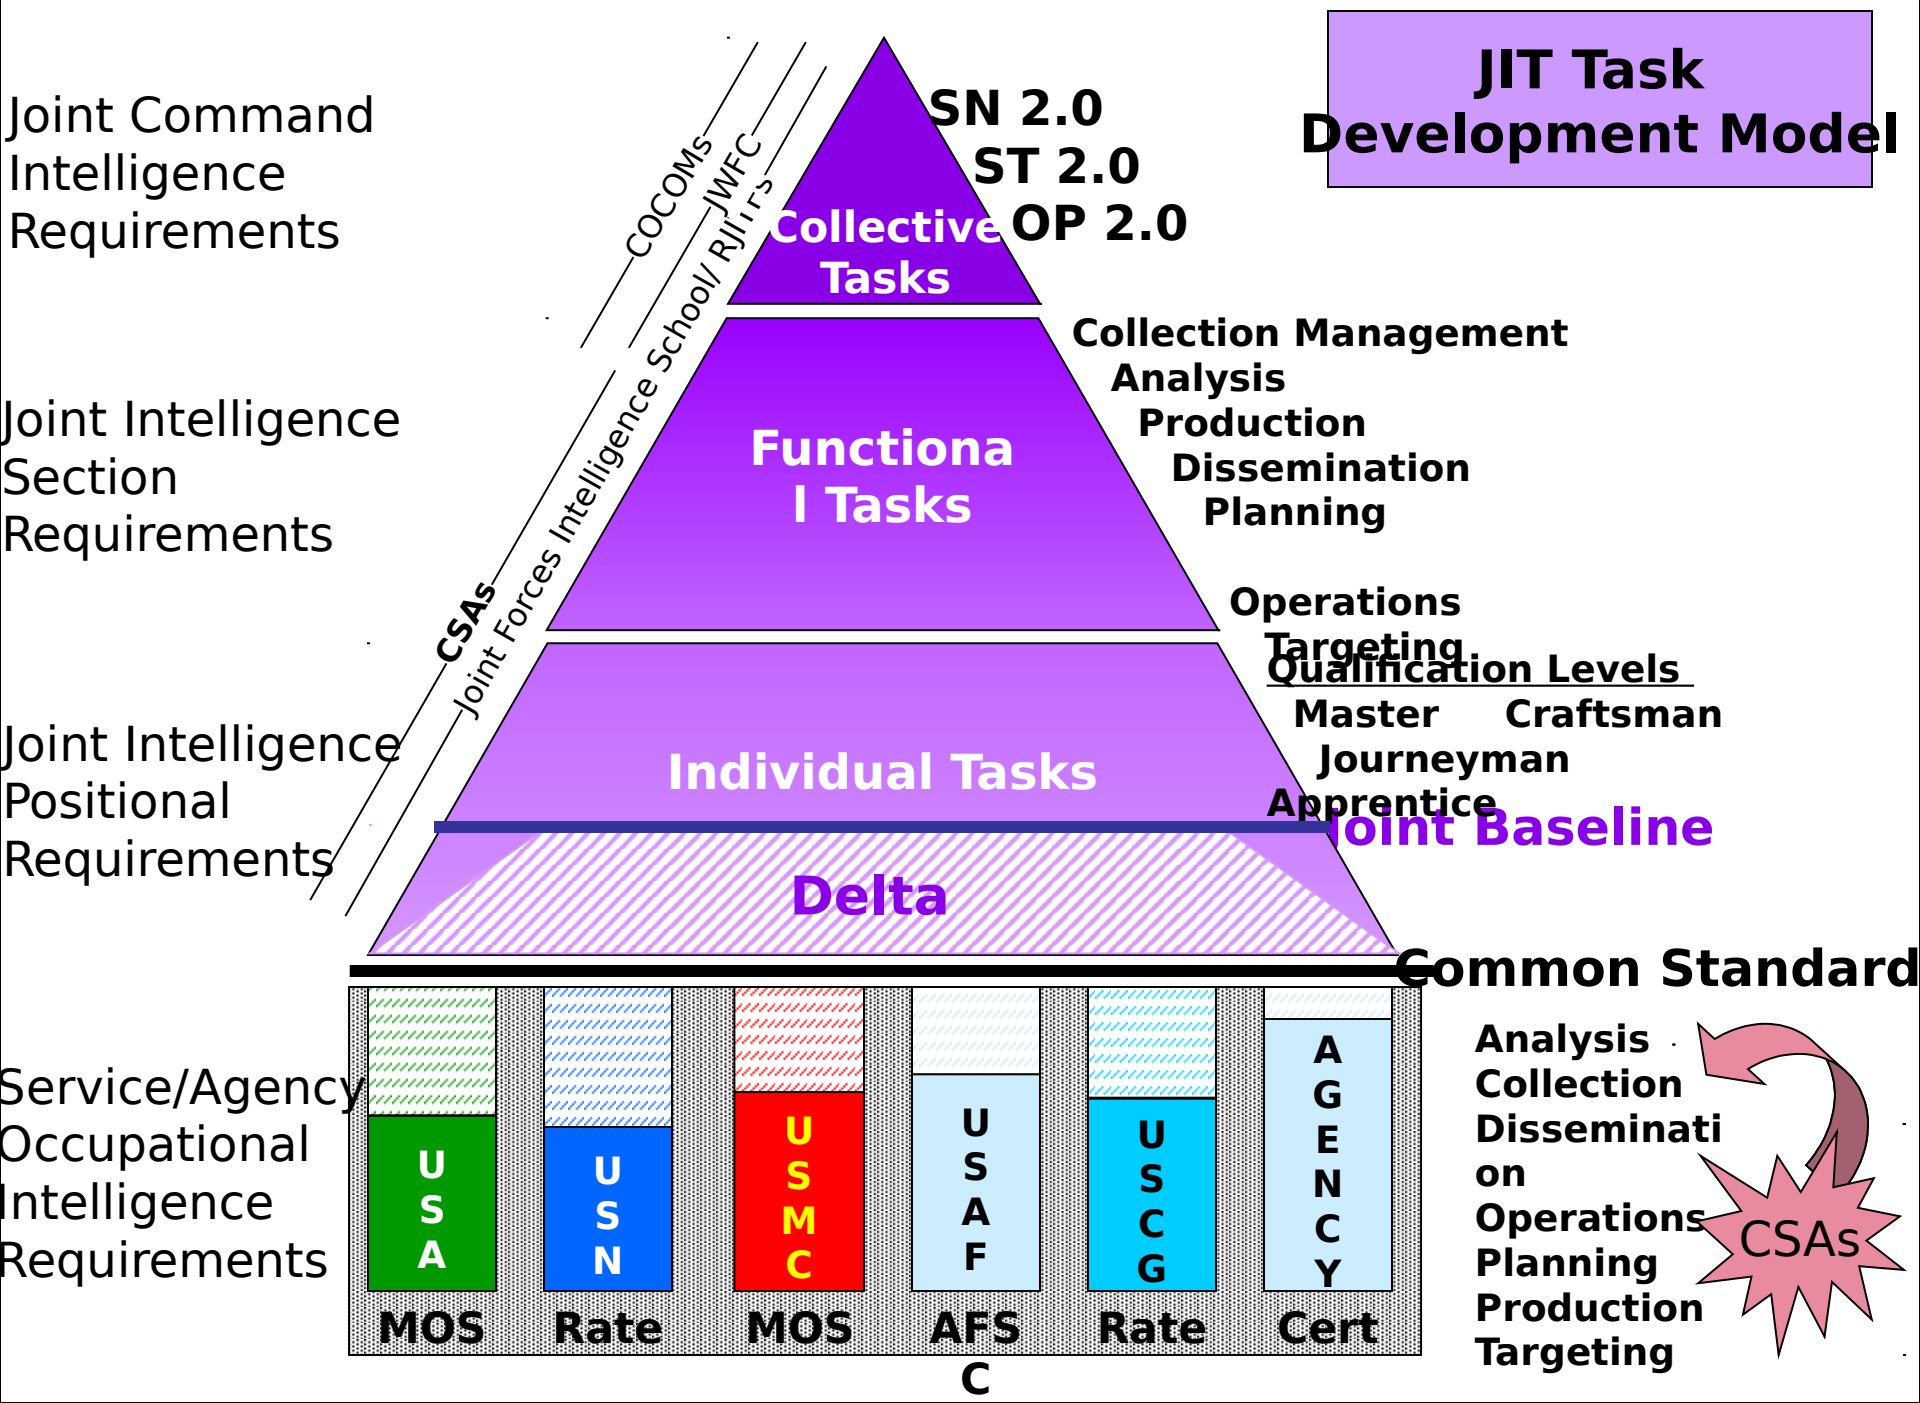
Joint Intelligence Operational Construct



1. **Applicable at all levels of war (Tactical – Strategic)**
2. **Consistent with current Joint and Service Doctrine**
3. **Used as a baseline from which to build the Universal Tasks**
4. **Focused on Conducting "Intelligence Operations" vice Providing "ISR".**
5. **Provides appropriate support to the operational decision cycle**

"Operating Principle #3"

JIT Task Development Model



Conduct Joint Intel

Establish the Joint Intelligence

Conduct J2 Staff Operations (2.2)
